Professional Summary

Java Full Stack Developer with hands-on experience building web and mobile applications using **Java, Spring Boot, REST APIs, React.js**, and **MySQL**. Skilled in frontend-backend integration, CRUD operations, JWT-based authentication, API testing, debugging, and database management. Experienced in developing scalable applications and delivering end-to-end software solutions in Agile development environments.

Technical Skills

Programming Languages: Java, JavaScript, SQL, C, C++

Frontend Technologies: React.js, HTML5, CSS3, React Hooks, Responsive Design, React Native (Expo), React Navigation

Backend Technologies: Spring Boot, Spring MVC, Spring Data JPA, REST API Development, Java Servlets, JSP, Object-Oriented Programming (OOP)

Database Technologies: MySQL, JDBC, SQL Queries, CRUD Operations, Database Integration

Tools & Platforms: Git, GitHub, Postman, Maven, Netlify, IntelliJ IDEA, Eclipse IDE, VS Code

Development Practices: Agile/Scrum, MVC Architecture, API Testing, Debugging, Authentication & Authorization, Role-Based Access Control

Professional Experience

Software Developer

Oct 2025 – Feb 2026

GTasterix IT Services Pvt. Ltd.

Pune, Maharashtra

- Developed full-stack web and mobile applications using **Java, Spring Boot, React.js, REST APIs**, and **MySQL** following Agile development practices.
- Implemented secure **JWT-based authentication** and role-based access control for protected application workflows.
- Built and optimized **CRUD operations** with MySQL integration, improving backend data handling and API performance.
- Performed API integration, debugging, testing, and issue resolution across frontend and backend modules.
- Managed project dependencies and build workflows using **Maven** during backend development and API integration.
- Collaborated in code reviews, sprint planning, and technical discussions within cross-functional development teams.

Software Developer Intern

Jul 2024 – Jan 2025

Asterisc Technocrat Pvt. Ltd.

Nagpur, Maharashtra

- Worked on Java-based application development using **Spring Boot, REST APIs, Servlets**, and **MySQL**.
- Developed and tested RESTful APIs using Postman and performed debugging using IntelliJ IDEA and Eclipse IDE.
- Applied object-oriented programming concepts including inheritance, encapsulation, polymorphism, and abstraction in Java projects.
- Contributed to frontend-backend integration and feature development within Agile sprint cycles.

Projects

Hospital Management System – Web Application | *Java, Spring Boot, React.js, MySQL, REST APIs*

- Developed and deployed a full-stack Hospital Management System using **React.js**, **Spring Boot**, **REST APIs**, and **MySQL** to streamline patient registration, doctor management, and appointment scheduling workflows.
- Designed and integrated secure **RESTful APIs** with **JWT-based authentication** and role-based access control for protected application workflows.
- Implemented **CRUD operations** with MySQL and optimized SQL queries using JDBC for efficient backend data management and API performance.
- **Live Demo:** hospital-management-app.netlify.app

Hospital Management System – Mobile Application | *React Native, Expo, REST APIs, JWT*

- Developed a cross-platform mobile application using **React Native (Expo)** for Android and iOS platforms with secure REST API integration.
- Implemented **JWT-based authentication**, protected navigation workflows, and role-based access control using React Navigation.
- Integrated backend APIs with Spring Boot and MySQL to support healthcare management workflows and real-time data handling.

MediOptiSOS – Medicine Search Platform | *Java, React.js, MySQL, Google Maps API*

- Developed a location-based medicine search platform using **Google Maps API** and MySQL for pharmacy discovery and inventory lookup workflows.
- Built backend APIs and integrated database workflows for medicine inventory management and location-based search functionality.
- Implemented SEO optimization techniques to improve application visibility and search engine indexing.

Education

Bachelor of Technology in Computer Science and Engineering

2021 – 2024

RTMNU KDK College of Engineering

Nagpur, Maharashtra

- CGPA: 8.44 / 10
- Relevant Coursework: Data Structures, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Engineering

Higher Secondary Certificate (HSC)

2020

Chhatrapati Shivaji Preparatory Jr. College

Aurangabad, Maharashtra

- Percentage: 68%

Secondary School Certificate (SSC)

2018

Alphonsa Sr. Sec. School

Wardha, Maharashtra

- Percentage: 76%

Leadership & Activities

- **Sports Head, PICSEL Committee** – Coordinated sports event planning, scheduling, and team management for college-level activities.
- Used Git and GitHub for version control, branching, merging, and collaborative development workflows across project modules.
- Participated in Agile/Scrum ceremonies including sprint planning, standups, and retrospective meetings during professional experience.
